

Our Collaborative PARTNERSHIP!

RADIANT Community Athletic Productions announced that we teamed up with the fast growing **Morris Basketball Program in 2020**.

The **Morris Basketball Program** was founded in 2014 on the principles of raising the skill level of each and every individual player that comes through their doors. Since its' creation, "MBP" has quickly grown into a premier basketball program in NJ. They have coached basketball players from every level and skill range in every county in Northern NJ, as well as the Tri-State Area.

MBP coaches all experience levels from beginners to professionals, and has basketball programs for players aged 4 through college levels. They provide travel and AAU basketball teams, basketball clinics, practices, private basketball training, group basketball training, team basketball training, Pee Wee Basketball classes, and off-season basketball workouts. They will now add our community service component to their product and service mix.

Combining **RADIANT'S** 14 years of history and success of coaching and mentoring 230 high school student athletes, 89 collegiate athletes, 33 division 1 collegiate athletes, and 9 professional athletes with MBP's young, strong and growing program, provides a winning partnership for all participants, and their families. We look forward to growing as a team with our new partner, Morris Basketball Program!
